Summer 2016  
Blatt 8  
(17.06.2016)

Recapitulate the content of the course taught so far. Think about what you would like to have explained again. Are there open questions or points that need to be clarified?

Next weeks' exercise class will be room for questions, clarifications and discussions. If possible, it would be great, though, if you could send your question/topic in an email to J.Cuesta or M.Wolf before the exercise class.
