Postdoctoral Position in Mathematical Physics at the TUM

A postdoctoral position in Mathematical Physics is available at the Technical University of Munich. The appointment is for 1 year and 6 months and the exact starting date is negotiable. This position is a part of the project 'Asymptotic Completeness in QFT', funded by the Emmy-Noether Programme of the DFG. The project concerns scattering theory of quantum systems including the question of complete particle interpretation and infrared problems.

The successful candidate should have a respectable research record in one or more of the following topics: quantum field theory (relativistic or non-relativistic), spectral and scattering theory of Schrödinger operators, operator algebras with applications in Physics.

The application should contain a letter of motivation, CV, list of publications and contact information of one referee. The applications should be sent to Dr. Wojciech Dybalski (dybalski@ma.tum.de) before September 15, 2019.
